

Alberta Blue Cross enhances its provider online services website for podiatry providers.

Our online health provider (OHP) website was recently enhanced to include patient memory functionality. When submitting a claim for a returning patient, the provider can enter their last and first name to recall their details.

For instructions, please see the [podiatry providers user guide](#).

Please inform providers using our online submission system.

If you have any questions, please contact an Alberta Blue Cross Health Provider Services representative at 780-498-8083 (Edmonton and area) or toll free at 1-800-588-1195 (all other areas).
