

## Prosthetic Service Fees

	Qty. / Freq.	Functional Level	Cat. No.	AADL Price
--	--------------	------------------	----------	------------

### Prosthetic Modifications and Repairs

AADL will not fund any modifications or repairs to a prosthetic device within ninety (90) days of provision of the device. Specialty Suppliers are required to provide all necessary follow-up to ensure the device is able to be used for the purpose intended without additional cost to AADL or the client.

A prescription and validation certificate are **not** required for minor adjustments or repairs after original fitting of an AADL funded prosthetic device.

The following activities may not be claimed as modification / repair benefits:

- trialing new components
- trimming/modifications to new gel liners
- gait training
- replacement of components that have a specific catalogue number in the approved product list
- basic maintenance of a prosthesis, for example cleaning the device is the client's responsibility.

Specialty Supplier must document the nature of the work completed and clinical justification on the client's file, and provide copies of this documentation on request.

Requests for Prior Approval benefits must be submitted to Alberta Blue Cross using the Prior Approval authorization stream. Include documentation of applicable material costs, labour hours and clinical rationale. Maximum funded amount and upgrade costs will be determined by AADL.

### Socket

Major Modification or Repair to Socket	5 Socket Modifications/Repairs Per 12 Months	All	<b>P788</b>	Prior Approval
--	--	-----	-------------	----------------
