| RECYCLE SERVICES – WHEELCHAIRS AND LARGE EQUIPMENT | | | |
|---|--|-------------------------------------|-------------------|
| <p>AADL-approved vendors for new purchase and repairs provide repair services for AADL-owned wheelchairs and large equipment.</p> <p>AADL-approved vendors must employ technician(s) with qualifications listed under each benefit type: Power Wheelchairs, Manual Wheelchairs, and Large Equipment. Vendors must provide updated certificates to AADL to continue to provide AADL repair services.</p> <p>Repair services can be provided without an authorizer. The vendor can directly claim on the Alberta Blue Cross online health portal for repairs up to the yearly maximum. If the repair is above the maximum amount, the vendor submits an authorization for a “prior approval parts change and repairs.” The authorization will be pending subject to an AADL approval for the requested repair.</p> <p>Parts changes must identify the authorizer requesting the change but can be submitted by the vender. Refer to Policy Manual ZN: Recyclable Benefits: New Purchase and Repair for details.</p> | | | |
| POWER WHEELCHAIRS | | | |
| <p>Power wheelchair technicians must have certificates from each power wheelchair manufacturer (for two consecutive years) to be qualified to provide power wheelchair services on the specific manufacturer’s models.</p> | | | |
