

Pharmacy Benefact

A BULLETIN FOR PHARMACY SERVICE PROVIDERS FROM ALBERTA BLUE CROSS

Number 436 • February 2014

Pan-Canadian Competitive Value Price Initiative for Generic Drugs

Alberta prices effective April 1, 2014.

Last year, the Council of the Federation, comprised of Canada's 13 provincial and territorial premiers, announced a price reduction to 18 per cent of the lowest brand price in participating provinces and territories for six drugs for the Pan-Canadian Competitive Value Price Initiative for Generic Drugs: Amlodipine, Atorvastatin, Omeprazole, Rabeprazole, Ramipril and Venlafaxine.

This year, four drugs have been added to the Pan-Canadian Competitive Value Price Initiative for Generic Drugs: Citalopram, Pantoprazole, Rosuvastatin and Simvastatin. The Government of Alberta is taking steps to implement pricing for these drugs for April 1, 2014.

Manufacturers have confirmed through a Pan-Canadian Price Confirmation process their ability to supply to pharmacies in participating provinces and territories, including Alberta, the drugs included in this Initiative at the 18 per cent price reduction.

New pricing for drugs affected by this Initiative will become effective immediately on April 1, 2014. The *Alberta Drug Benefit List (ADBL)* will be updated at that time to reflect the change to the price of each of the drugs and the Least Cost Alternative (LCA) in the interchangeable grouping for these drugs.

A transition or washout period will not apply to drug products included in this initiative. Notification of prices is being provided at this time to allow pharmacies, manufacturers and wholesalers adequate time to adjust inventories and manage stocks.

Please see the below list of drugs included in the Pan-Canadian Competitive Value Price Initiative for Generic Drugs and the prices for the *ADBL* to be effective on April 1, 2014. Pharmacies must begin claiming the LCA amount for the drugs affected by the Pan-Canadian Competitive Value Price Initiative for Generic Drugs on April 1, 2014.

Please note that for currently listed drugs not affected by this Initiative, where there is a price reduction on April 1, 2014, a washout or transitional period of 30 days will continue to apply.
