

QR code update– 2026–27 fall vaccine pre-orders

As of September 29, 2025, Albertans can pre-order their COVID-19 and influenza vaccines through the Alberta Vaccine Booking System (AVBS) for the 2026–27 immunization season.

The QR code links directly to the AVBS pre-order site. It has been updated to reflect the start and end dates for the pre-ordering period. An online version of this Benefact will also be available on the Alberta Blue Cross® website, where pharmacies can download, print and post the updated QR code: <https://www.ab.bluecross.ca/pdfs/pharmacy-benefacts/pharmacy-benefact-1285.pdf>.

Pharmacies are encouraged to display the updated QR code to remind Albertans that pre-ordering for the 2026–27 immunization season is now open. The QR code should be removed by December 15, 2025, when the pre-order period ends.

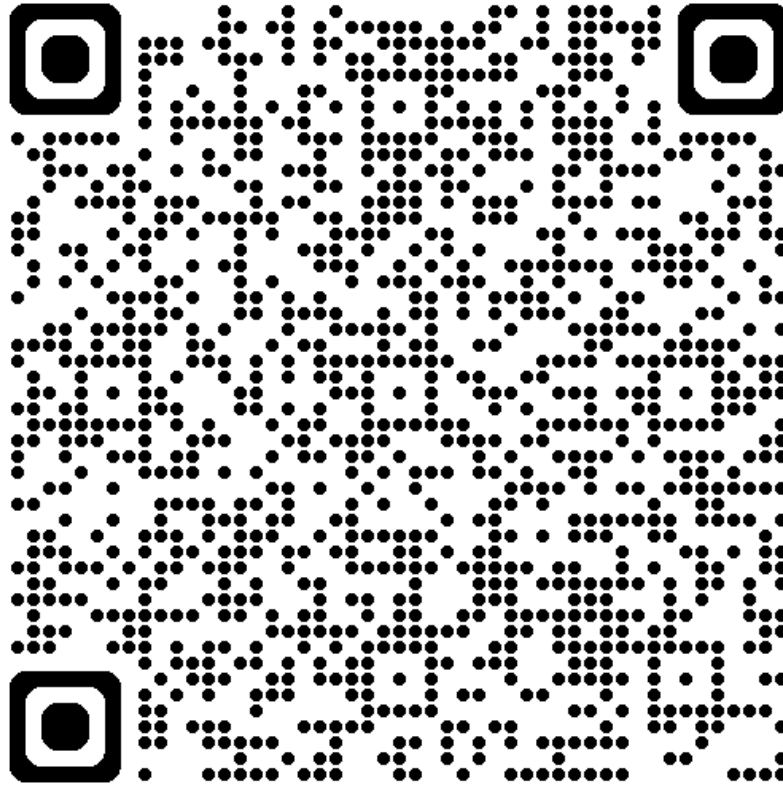

Submitting a pre-order for a vaccine is encouraged to support planning and vaccine procurement. Eligibility and availability will be determined once the policy for the 2026–27 season has been approved.
