

Pan-Canadian Competitive Value Price Initiative for Generic Drugs

Alberta prices effective April 1, 2017

In 2013, the Council of the Federation, comprised of Canada's 13 provincial and territorial premiers, announced a price reduction to 18 per cent of the lowest brand price in participating provinces and territories for six drugs for the Pan-Canadian Competitive Value Price Initiative for Generic Drugs. In 2014, 2015 and 2016, a total of 12 additional drugs were added.

This year, a bridging period for the pan-Canadian Pharmaceutical Alliance (pCPA) Generics Initiative was announced effective for April 1, 2017. Under the bridging arrangement, the price of the following molecules will be further reduced from 18 per cent to 15 per cent of the brand reference price: Atorvastatin, Amlodipine, Simvastatin, Pantoprazole, Ramipril and Clopidogrel. More information on the pCPA Generics Initiative can be found at: <http://formulary.drugplan.health.gov.sk.ca/PanCanadian.aspx>.

Through a Pan-Canadian Price Confirmation process, manufacturers have confirmed their ability to supply the drugs included in this Initiative at the prices listed below **as of April 1, 2017** to pharmacies in participating provinces and territories, including Alberta.

New pricing for drugs affected by this Initiative **will become effective immediately on April 1, 2017**. The *Alberta Drug Benefit List (ADBL)* will be updated at that time to reflect the change to the price of each of the drugs and the Least Cost Alternative (LCA) in the interchangeable grouping for these drugs.

A transition or washout period will not apply to drug products in this Initiative. Notification of prices is being provided at this time to allow pharmacies, manufacturers and wholesalers adequate time to adjust inventories and manage stocks.

Please see the below list of drug molecules included in the Pan-Canadian Generic Value Price Initiative for Generic Drugs and the prices for the *ADBL* to be effective on April 1, 2017. Claims submitted for drug products affected by this Initiative, with service dates of April 1, 2017 or greater will be subject to the new LCA price.

AMLODIPINE BESYLATE
