Pan-Canadian Select Molecule Price Initiative for Generic Drugs

Alberta Drug Benefit List prices effective April 1, 2019

The Pan-Canadian Select Molecule Price Initiative, established in 2013 by the Health Care Innovation Working Group of the Council of the Federation achieves better value for generic drugs by leveraging the combined purchasing power of participating jurisdictions to obtain the lowest generic prices achieved to date in Canada.

Effective April 1, 2019, there will be no changes to the existing molecule list nor changes to existing price points.

Through a Pan-Canadian Price Confirmation process, manufacturers have confirmed their ability to supply the drugs included in this Initiative at the prices listed below to pharmacies in participating provinces and territories, including Alberta.
